*To members of District 1:*

*May 7, 2023*

*The Americanism Committee has been working on new ideas to improve the amount of kids participating in our youth programs, and getting the communities to understand what the American Legion is and what they do for our Veterans and youth.*

*You will be hearing from all of our Americanism committee chairs, we have good participation, but could be better.*

*I have created a binder with all of our programs in to give the schools. It makes it a lot easier for the kids to look for and see what they are interested in without looking in 10 different file drawers.*

*Please reach out to your schools and maybe sit in on a school board meeting, let them know you are and what we have to offer. Most parents don't know about us or the scholarships and programs available for their children. If you have questions Sheri at state headquarters can help you.*
